

Digital Wallet Set-Up for Android

***If you have trouble uploading your card, remove the card, restart your phone, and then attempt to add the card again. This is a glitch in the Apple Wallet, not the CSB card. Thank you.**

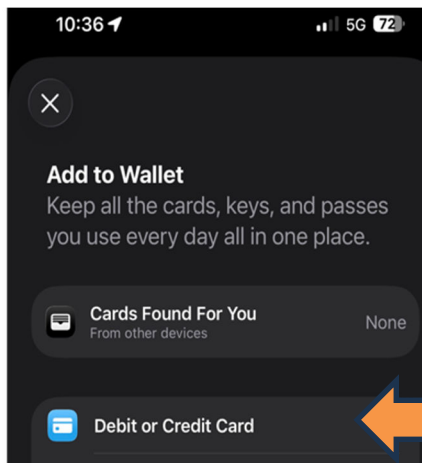

Step 1

Log into your Apple Wallet App
Select the + to add your card

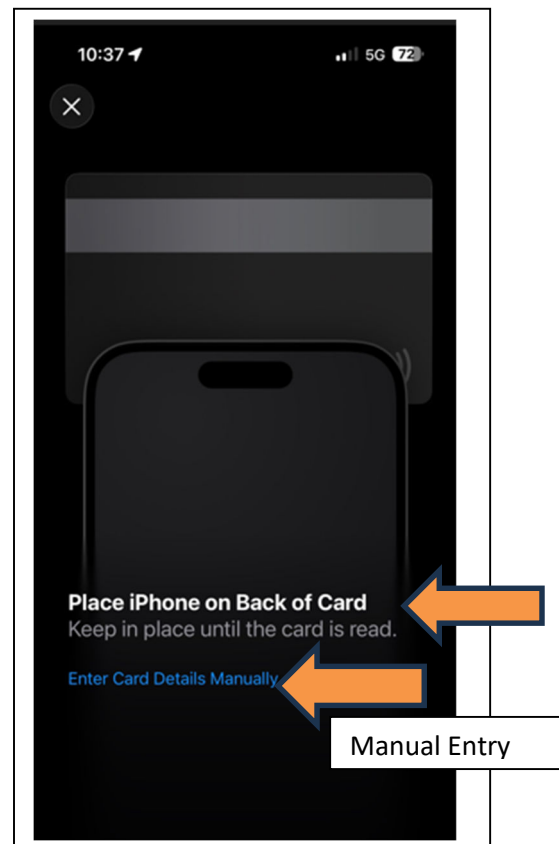

Step 2

Select to add a payment card
Click on Continue

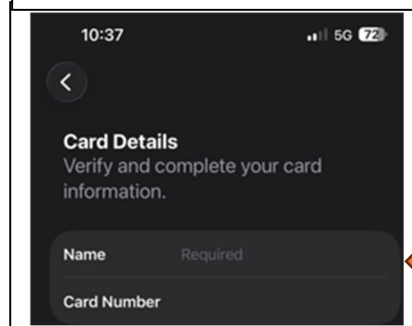

Step 3

If you have a tap2pay card, you can scan it with your phone. If you do not you will need to enter the information manually

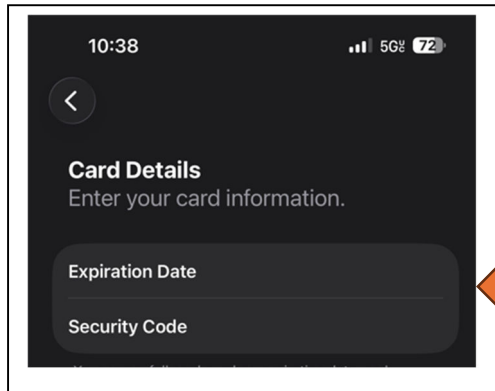

Step 4

Enter your name as it appears on your card
and the number

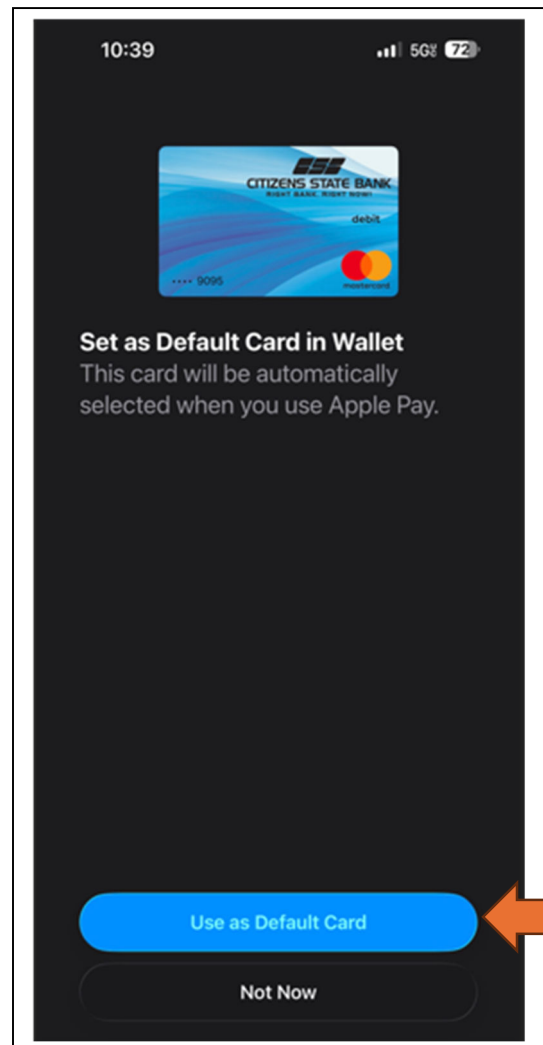

Step 5

Enter your Expiration Date and your Security Code (CVV #)

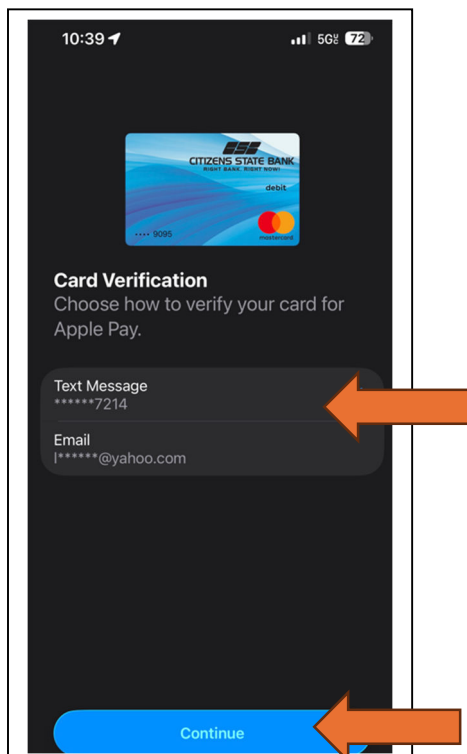

Step 7

You can choose to make this your default payment card or select not now

Step 6

Select how you would like your verification sent and click Continue

You are all set to use your digital wallet!
